General of the Senate and House of Representa-tives:

In discharge of my daties, as prescribed by law, I herewith subult my report of the op-crations of this Department for the fiscal year ending with the 10th day of October last. A strict scrutlny and examination of the several statements submitted, is carnestly invoked in order to a proper understanding of the finan-cial finites of our beloved Commonwealth. There is no duty imposed upon the represent-atives of the people which demands more of their time and thoughtful consideration than do the financial interests of the State. Hence the solicitude which if feet that all of the op-crations of this Department of the state Or-erment should be thoroughly stadled and understood.

It will be seen from an examination of Table 2, that the total receipts of the Treasury from the 11th day of October, 1865, to to 10th day of October, 1866, the Inchasive, amount to \$1.71, 75 and 1865, the 10th of \$1.71, 75 and 1865, the 10th of \$1.71, 75 and 1865, and you have the sum of October, 1866, and you have the sum of October, 1866, and you have the sum of October, 1866, and you have the total rending the 10th day of October has the total rending the 10th day of October has the total will exhibit the amounts paid ont by the Treasurer, on the warrants of the Auditor, during the same period, to wift from the 11th day of October, 1869. That it is the paramount duty of the present General Assembly to provide for this large deficit by some appropriate and adequate legislation there can be no serious question. The postition of the Times is the swerzest condemnation of the whole ficancial theory of the party in power, which has been from the first a succession of blunders, traud, peculation, in which Government officials have played into the hands of speculators and gamblers in gold and stocks. There has never been manifesied any regar for the interests of the tolling millions; the object has been to grind from them a large per cent, of their resources under the pies of national bonor, national credit, tow rates of interest, etc., etco indefinitiely.
